

Hello Kelli!

2008/01/17

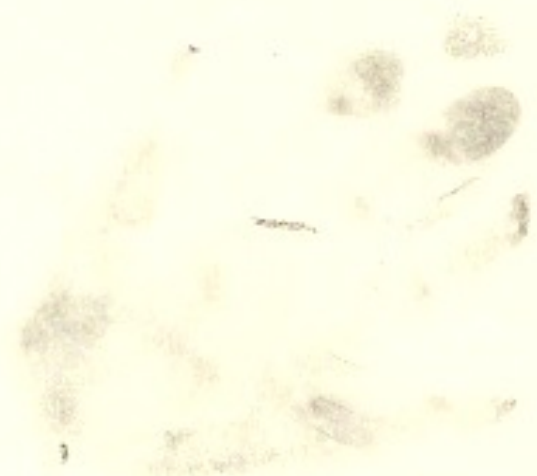

What wonderful news I have to share with the universe! Alvin and I are very blessed to have had the opportunity to bring our daughter Liona into the world on January 11<sup>th</sup> through a natural home birth with A Mother's Nature Home Births. Your experience, passion, professionalism, wisdom, and overall presence and energy is what made such a grounding and powerful life-changing event all that it was for our new family. Our daughter is healthy, beautiful, full of life, strong, and *everything* we could have dreamed for her to be.

The service you provide to women is a true labor of love and life, and the skills and ability you possess are sure to bring many more happy, healthy, natural children into this world. All throughout the prenatal visits, I thank you for ALWAYS taking the time necessary to make sure my questions were answered accurately, that I was informed of techniques that absolutely made my labor easier than it otherwise would have been, and that I learned so much valuable information about nutrition and the miracle of life. In labor I felt incredibly empowered and safe. **I had confidence in myself. I trusted my body.** And the end result: <http://family.mitesdesign.com> (a healthy, happy family).

Kelli, Celeste & Holly, thank you all so much for allowing me the opportunity to cross my true rite of passage into womanhood safely through a natural home birth. Looking back I would not have done it any other way. Thank you!

With many blessings,

Hillary
